

ADAPTIVE MEDICAL STATION

Introducing the nation's first adaptive medical station due to a partnership between Metrolina Association for the Blind, Lion Services, and Mecklenburg County Public Health. This innovative station provides people who are blind or visually impaired a better way to manage chronic diseases like diabetes.

KEY FEATURES:

✓ Information is kept private through headphones

✓ Station can be used for telehealth visits

✓ Station values your input through an exit survey

HEALTH METRICS:

- Check blood pressure
- View oxygen levels
- Measure weight
- Monitor blood sugar
- Review medication bottles with audible devices

TAKE CONTROL OF YOUR HEALTH
